

## ADULT-GERONTOLOGY ACUTE CARE NP PROGRAM — Sample curricular program. Full-time.

### BS to DNP Program

**Our Hyperflex model combines the flexibility of online learning with the value of in-person experiences.**

Most courses can be completed remotely, but those [shown in blue below](#) include required on-campus sessions for essential hands-on training.

Clinical, lab, and simulation courses feature scheduled in-person practice sessions to help you build the real-world skills needed for confident clinical care.

Each 11-week quarter also includes a Seminar Week (typically during Week 5). For non-blue courses below, you can choose

to participate either on campus or remotely to connect and collaborate with your classmates.

***Hyperflex flexibility—online or in person, your choice.***
