PRIMARY CARE ADULT-GERONTOLOGY NP PROGRAM — Sample curricular program. Full-time.
BS to DNP Program

Our Hyperflex model combines the flexibility of online learning with the value of in-person experiences.

Most courses can be completed remotely, but those shown in blue below include required on-campus sessions for essential hands-on training.

Clinical, lab, and simulation courses feature scheduled in-person practice sessions to help you build the real-world skills needed for confident clinical care.

Each 11-week quarter also includes a Seminar Week (typically during Week 5). For non-blue courses below, you can choose

to participate either on campus or remotely to connect and collaborate with your classmates.
